

## Salute to Our Students

This year AAWP has created a student liaison position. This student acts as the connection between the various student chapters and the AAWP executive board. She will also be assisting us at the national meeting in Toronto.

The student chapters of AAWP are very active within their individual schools and in the community.

Although times have

changed, they face many of the same issues that we faced when we were students.

When asked what they would like from AAWP, they have all responded that they want to meet women podiatrists who might speak to their groups and or act as mentors. If you are interested, contact either your school, or one close to you.

## California Advisory Board Basketball Tournament (CAB)

This year there are five women's teams competing. The tournament is being hosted by the California School of Podiatric Medicine, held on the University of San Francisco campus on March 27 and 28. This annual tournament is a wonderful way for students to network and enjoy a little friendly competition.

Last year's winning team: OCPM

## Barry University

Desiree Mayo, Barry AAWP President

[dmayo@americanwomenpodiatrists.com](mailto:dmayo@americanwomenpodiatrists.com)

Barry University's AAWP chapter has so far been involved with the "American Cancer Society-Breast Cancer Walk" in October. We attended the walk in downtown Fort Lauderdale, Florida as well had a guest speaker come in and educate and inform our members the importance of Breast Cancer. During the holidays, we had a shoe drive for "Soles for Souls." It was a great success, collecting over 5 boxes of new and gently used shoes. After winter break, we recently had a "Clinical

*"We have the best turnout when we have a panel of female podiatrists discussing our role as being female in this profession."*

Basic Skills Workshop" with two other organizations showing students how to find pedal pulses and vital signs. March 24th, our adviser Dr.

Jacqueline Brill, will show our members how to do a "Foot Screening Evaluation". We will also be participating in "Relay for Life-American Cancer Society" in April. Our main event of the Year is "The View" on April 7th. In this

business casual event, we invite number of female podiatrists

consisting of 4th years, residents, and podiatrists, to sit in as a panel and discuss our role as a female in this profession. They answer many questions the students are concerned about and re-assure us with their experiences and knowledge. This is always are best turn out

## Temple University

Maryellen Brucato, Temple AAWP President  
Mbrucato@americanwomenpodiatrists.com

The AAWP (American Association for Women Podiatrists) Temple Chapter has been very active this past semester. We started off the year with a "welcome back" picnic for members that was held at Benjamin Franklin Park, and featured food and raffle prizes. AAWP also had a "wine & cheese" event for all the first years and the officers allowing the first years to ask the officers any questions they might have about starting podiatry school as well as giving the opportunity for the first years to learn more about our organization. It was very fun and the officers toasted the first years! The club also had an introductory meeting as well as a meeting that featured Dr. Jane Pontious of TUSPM as the main speaker. She spoke about the challenges and adversity she faced while in train-

ing as well as in her career. All agreed she was very inspiring. The club also headed "clinic staff appreciation day" where we collected personal notes of thanks from students and distributed them to the clinicians and clinic staff. The club sponsored a

*"Networking"*  
*"Toy Drive"*  
*"Pot luck lunch / Salsa Dancing"*

"members only" luncheon in the board room at TUSPM where food from Maggiano's was served and all the female clinicians were invited

to. It was a lovely networking event. We also held two fundraisers that also served as social functions: a potluck lunch and salsa dancing lessons. Both events were well received. The club sponsored a toy drive in which we collected over 30 toys for the people's emergency center which is a shelter for women and children right here in Philadelphia. The club sponsored a meeting in February which featured Dr. Marinalda Rodriguez, the new attending at TUSPM. The club is currently in the midst of planning an April meeting, dance lessons, and a lunch to honor Dr. Elaina Wellins, our chosen Woman Podiatrist of the Year. Additionally, the club has created an award to honor a graduating woman who has over-

## OCPM

Amanda Allen, OCPM President  
aallen@americanwomenpodiatrists.com

Our group has done numerous activities this past year including:

- Blood Drives (every 3-4 months)
- Free Clinic (once a month)
- Annual Clinical Symposium (co-sponsored by OCPM OPMSA)
- Spring semester Finals Breakfast
- Bake sales (Valentine's Day and Halloween)
- Chili Cook-off (held in Fall)
- Annual Flag Football Tournament

We are currently working with a podiatrist at OCPM to put together a video bank of Pediatric Gait in order to hold an annual Pediatric Gait Analysis Workshop. We also hope to have a local woman podiatrist speak to our members. We are a very active organization in the school and one of our goals this year is to reach out to the community more. The new Board members are full of great ideas to help us achieve our goal.

## CPMS Des Moines

Sheryl Hanawalt, CPMS AAWP President  
 shanawalt@americanwomenpodiatrists.com

The CPMS chapter started off with a dermatology lecture by Dr. Bakotic. A beginners golf clinic was scheduled, but unfortunately will have to be re-scheduled due to the weather. Members volunteered at Wesley Acres talking to the residents and taking them on walks. In October, AAWP returned to Wesley Acres to help the grounds crew rake leaves, pull weeds and paint curbs to get the campus ready for winter

Game night was held in November. Members also participated in a Senior Health Fair to provide information on foot care. They performed peripheral vascular disease screenings.

In December, Dr. Frerichs spoke to

- “Podiatric Lectures”
- “Working with Seniors”
- “Peripheral Vascular Screenings”
- “Volunteering at Women’s Resource Center”
- “Suture and Skinplasty Sessions”

Clean up Day

the club about her experiences in school and residency, opening up the floor to questions.

January, Dr. Frerichs lectured on Obesity and the Pediatric Foot.

Starting in March members are volunteering at the Young Women’s Resource Center Clothing Closet sorting clothes and helping young women choose clothing.

In April, Self defense classes will be given by DPM 2009 student and former policeman, Roger Drown. There will also be a suture and skinplasty session.

Game Night

## CSPM Samuel Merritt

Elizabeth Gero, CSPM AAWP Treasurer  
 egero@americanwomenpodiatrist.com

The AAWP of CSPM had an eventful year. It all started in October with an AAWP dinner. At the dinner, Dr. McAloon talked about life as a woman podiatrist. She was inspirational and answered all our questions. In December the AAWP put together a self defense workshop for the entire Samuel Merritt University student body. It was a helpful event for all that attended. The next event was the Napa Valley Marathon in March. The AAWP worked with other doctors at the marathon treating and assisting all runners. In March, the AAWP hosted a lecture given by Dr. Prasad. Dr. Prasad gave a very helpful lecture about podopediatrics. She even brought along her son as a live demo. It was a great turnout with first through fourth years attending. We hope to get Dr. Prasad to speak again soon. The AAWP also put together a fundraiser this year selling Maxwell books. The books were a seller and benefited all students who bought them.

**A GOOD FRIEND TO AAWP**

Every time you use WCPL for your  
specimens, AAWP is given a  
donation of \$5.00 that goes to  
ward our scholarship fund.

WCPL cares about the quality of the  
reports it provides to you and  
your patients.

WCPL contributes an average of  
\$900.00 a quarter.

WCPL sponsors the regional AAWP  
meeting at the Western.

**Mission Statement:**

*The American Association for Women Podiatrists, Inc. (AAWP) a related organization of the American Podiatric Medical Association (APMA) provides leadership in the advancement of the educational, political, financial, social, and emotional well-being of our members. We work in cooperation with other practitioners, the colleges, businesses, groups and other individuals.*

*In support of this mission, we are committed to:*

- 1. Serving as the national source for women's podiatric education and information; and*
- 2. Serving as a communication link and a support network for our membership*
